

PowerBuilder Product Management

Julie Jiang, Appeon

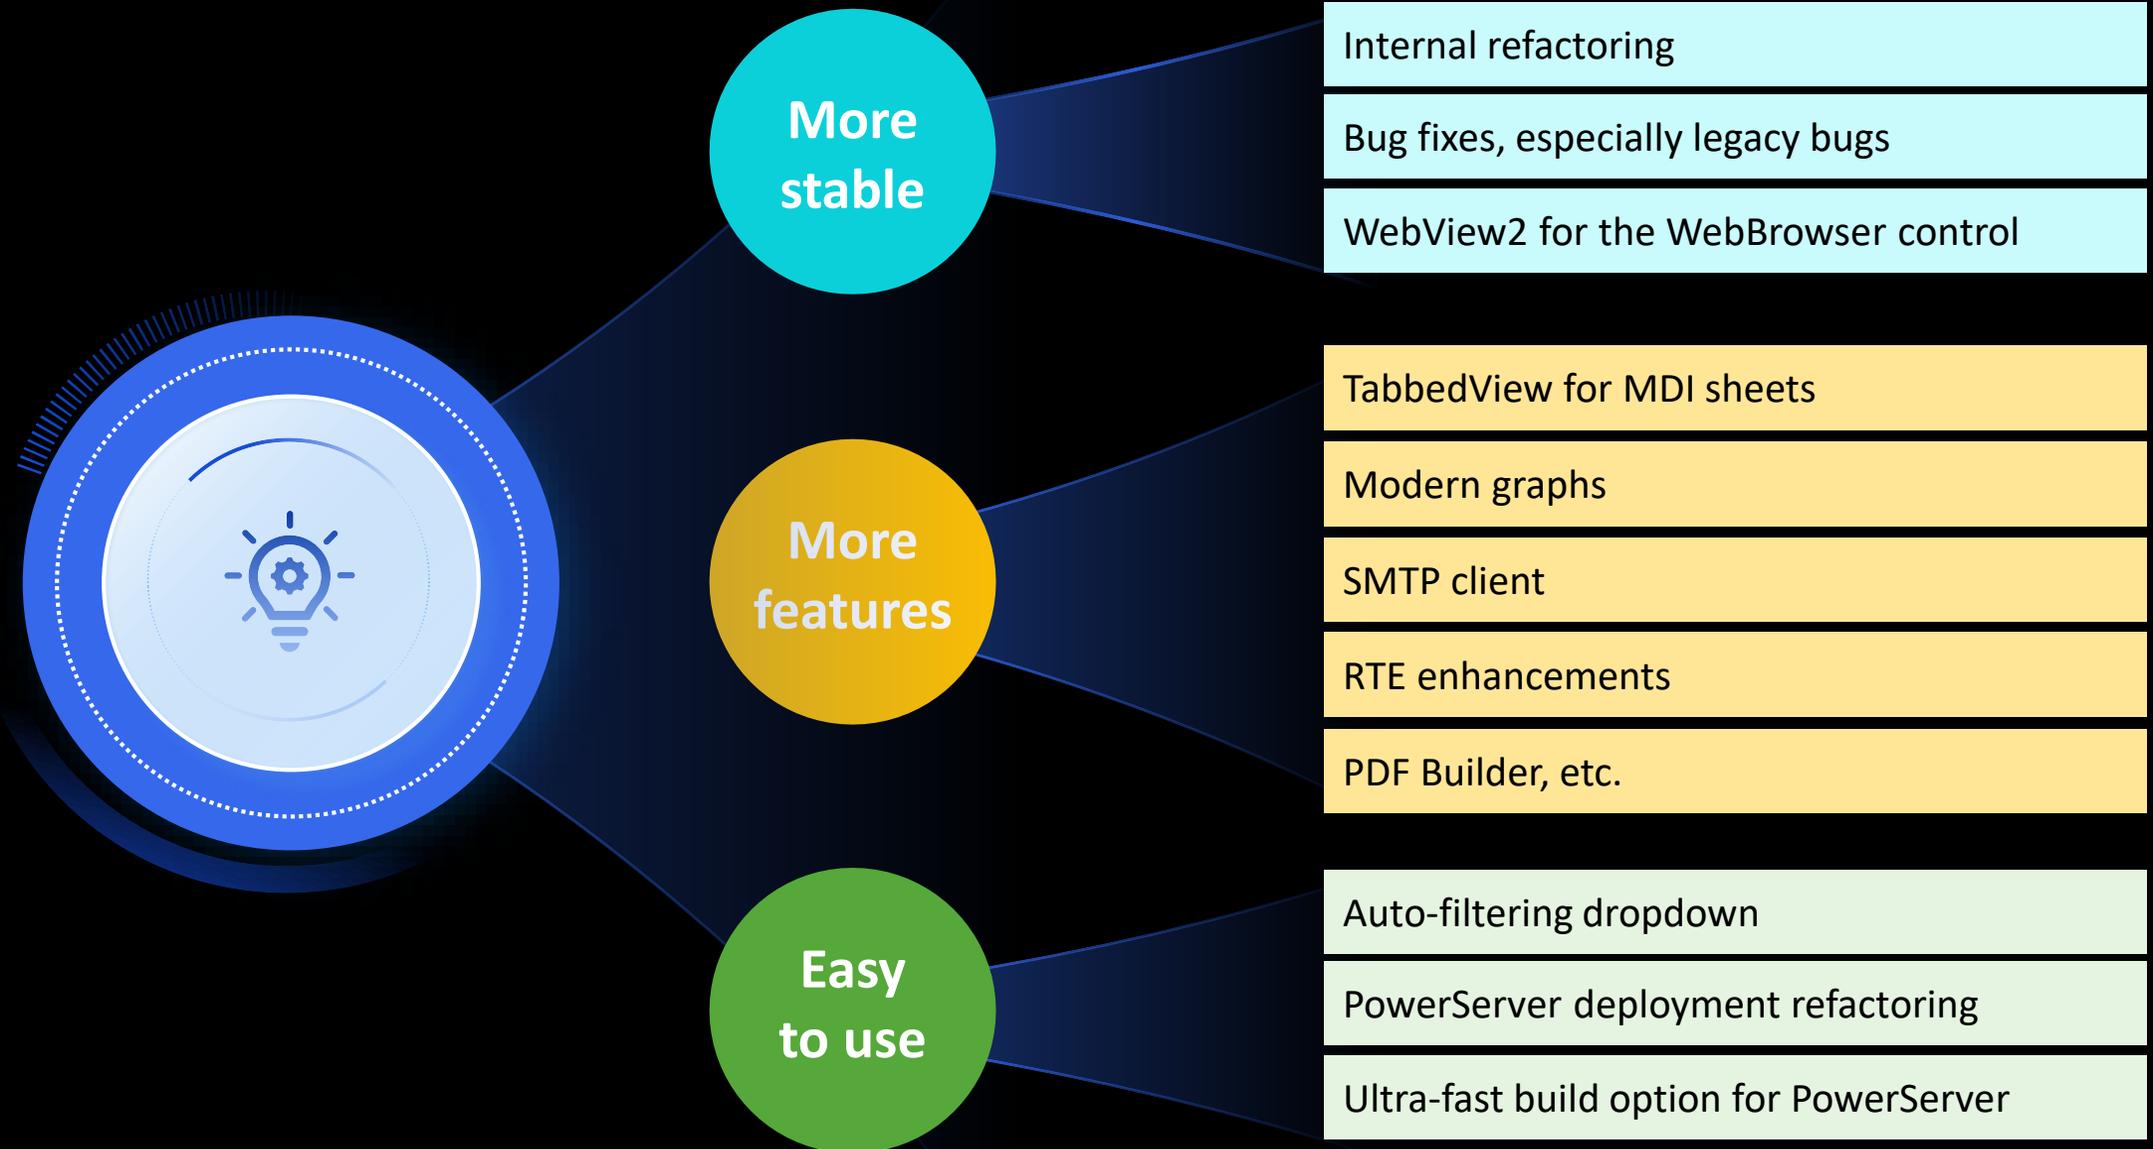

DISCLAIMER

The following information is being shared in order to outline some of our current product plans. We are hopeful that the following can shed some light on our roadmap, but it is important to understand that it is being shared for INFORMATIONAL PURPOSES ONLY, and not as a binding commitment. Please do not rely on this information in making purchasing decisions because ultimately, the development, release, and timing of any products, features or functionality remains at the sole discretion of Apeon, and is SUBJECT TO CHANGE.

Highlights of This Year

2022 R3 LTS Coming Soon

2022 R3 LTS Coming Soon

More security upgrades

TextControl ActiveX upgrade
No longer dependency on .NET
Framework 4.0
Internal refactoring

More issues resolved

UI-theme resizing issue
Continuous clean-up of legacy
bugs
2022 R2 bugs

Diverse requests addressed

Updating Migration Assistant
PowerServer & PowerClient –
Loading images from URL

Further Enhancements to Guarantee Stability

Deployments

- PowerClient
- PowerServer
- PBAutoBuild

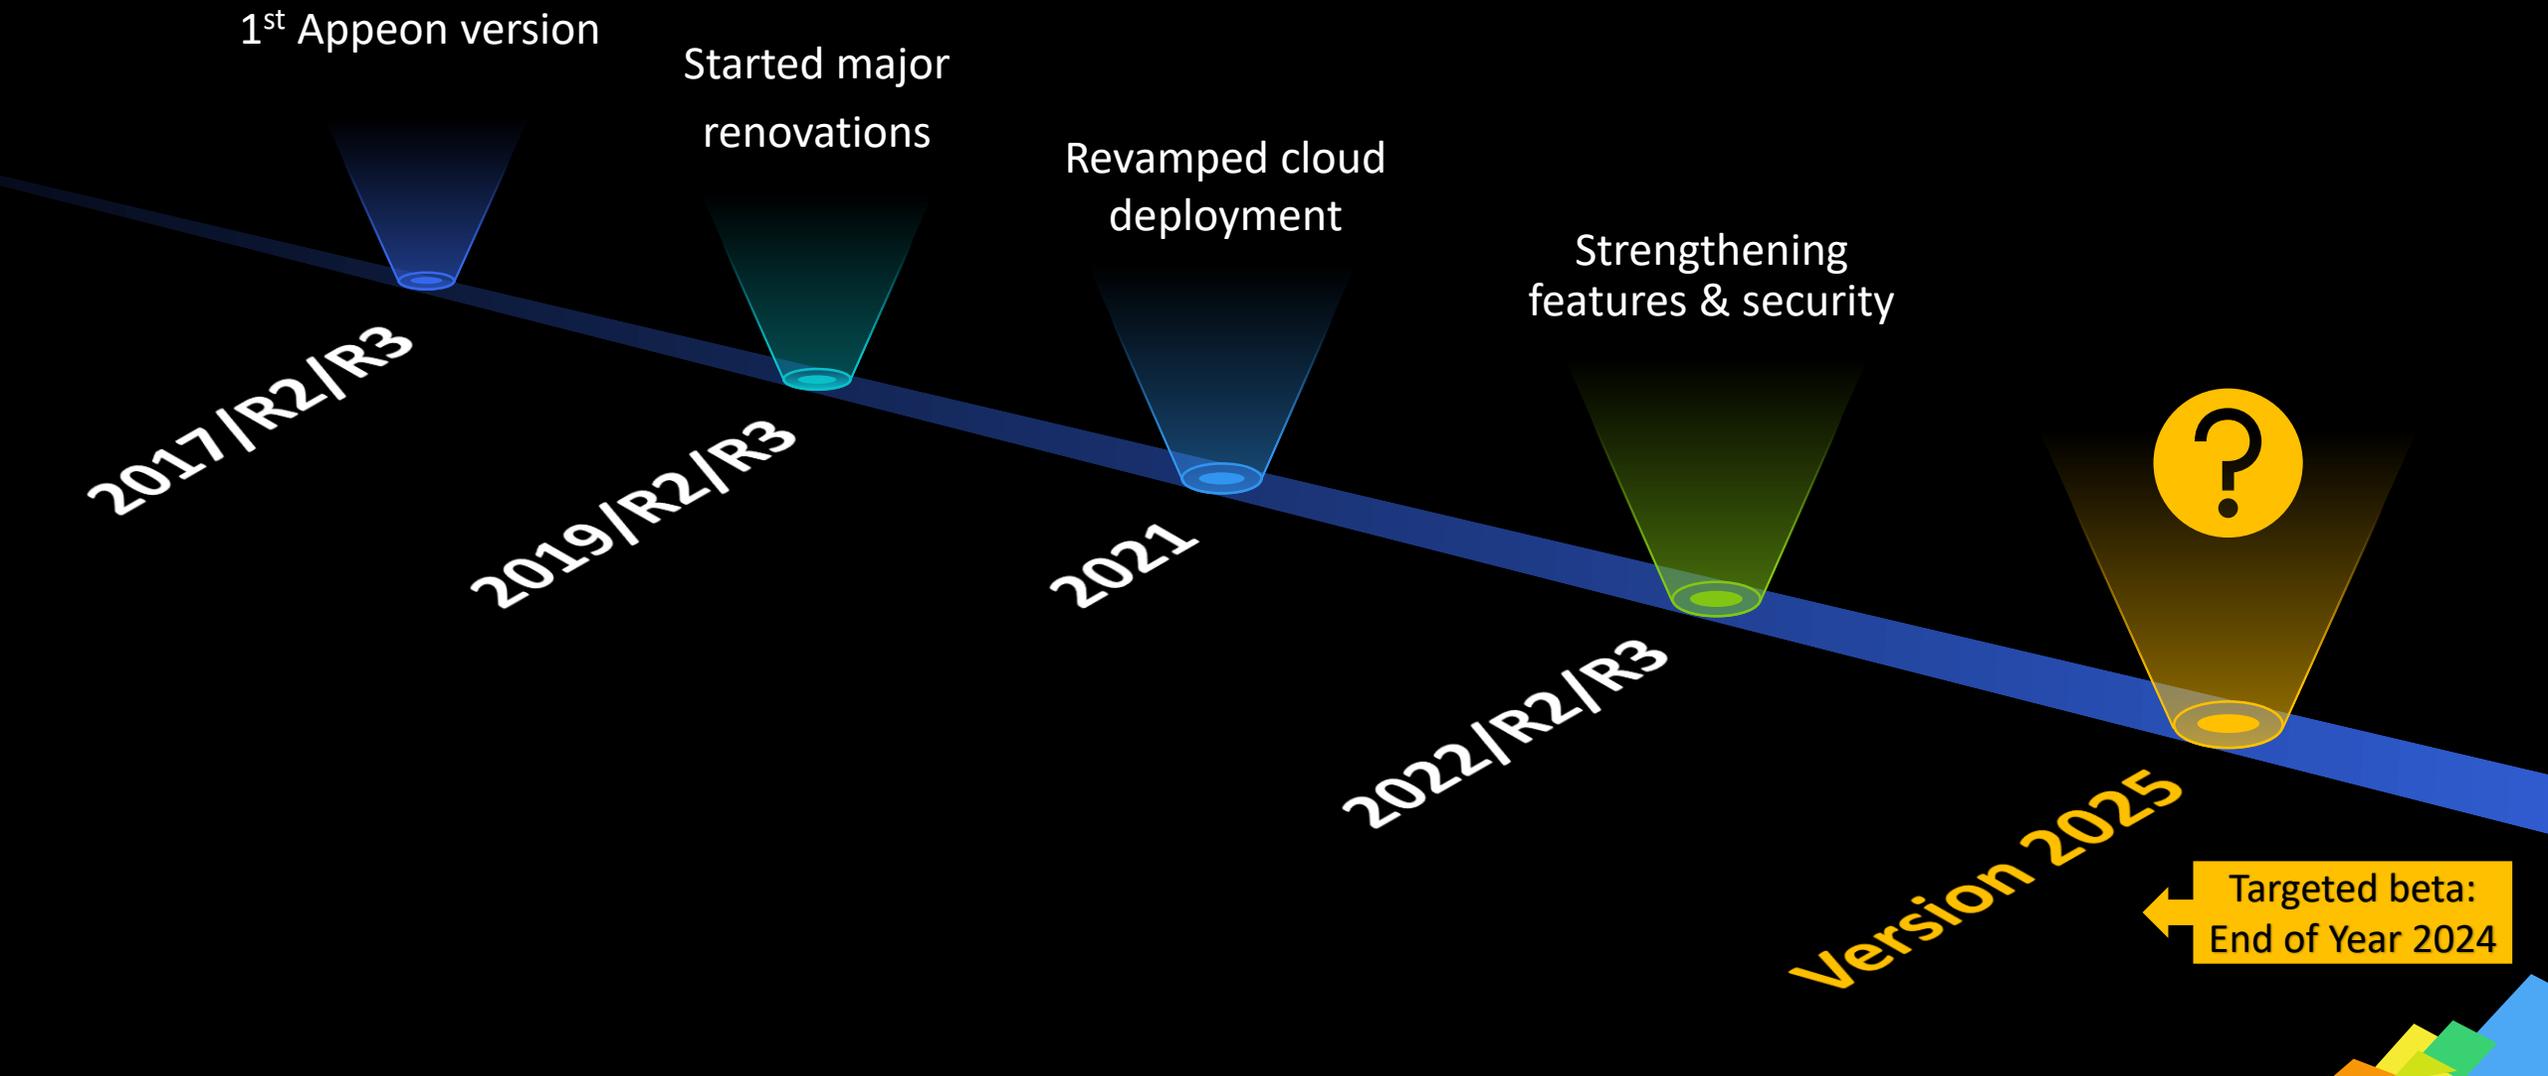

Modern UI

- UI theme
- Tabbed sheets
- Graphs

Core features

- Enhanced the overall
functionality and usability

Next Major Version – Version 2025

Next Major Version – Version 2025

New editor

1

New compiler

2

Revamped
development

Plain-text source

3

64-bit IDE*

4

* Planned for 2025 revisions

Next Major Version – Version 2025

New editor

- A seamless transition from the old
- Better code readability
- Better code navigation
- Higher coding efficiency
- Coding assistance capability

A large, stylized, light blue number '1' with a thick stroke and a slight shadow, positioned on the right side of the slide.

Revamped Development

Next Major Version – Version 2025

New compiler

- Parallel compilation process to prevent interference with the IDE process
- Facilitates AST in code analysis
- More accurate identification of modified code/objects
- Time saving (full and incremental build)

2

Revamped Development

Next Major Version – Version 2025

New compiler Performance

Full Build	Legacy Compiler	New Compiler
Code Example App <ul style="list-style-type: none">• 388 PB objects• 194 DataWindow objects	37s	10s
Customer App 1 <ul style="list-style-type: none">• 3,154 PB objects• 5,348 DataWindow objects	18m 56s	2m 50s
Customer App 2 <ul style="list-style-type: none">• 7,495 PowerScript objects• 10,853 DataWindow objects	1hr 31m 21s	9m 33s
Incremental Build		
Code Example App	36s	6s
Customer App 1	18m	23s
Customer App 2	3m	5s

Next Major Version – Version 2025

Plain-text source code

- Separate source code from Pcode
- Avoid work loss caused by PBL corruption
- Facilitate standard source control practice
- Open to other external tools

3

Revamped Development

Next Major Version – Version 2025

64-bit IDE*

- Already done – Run and debug 64-bit applications
- Direct connection to 64-bit database
- Call to 64-bit DLLs/OCXs in the IDE
- 64-bit IDE .exe, ORCA.exe...

Revamped Development

* Planned for 2025 revisions

Next Major Version – Version 2025

IDE

- Opening ancestor/descendent objects
- Enhancing tabbed editor
- DataWindow update properties
- Git: merging branch
- More resizing of the dialogs
- Better search
- Check duplicate objects in a PBT

Runtime/Modernization

- Display menu in RibbonBar style
- Export to excel using display values
- High DPI support
- More controls for modernization

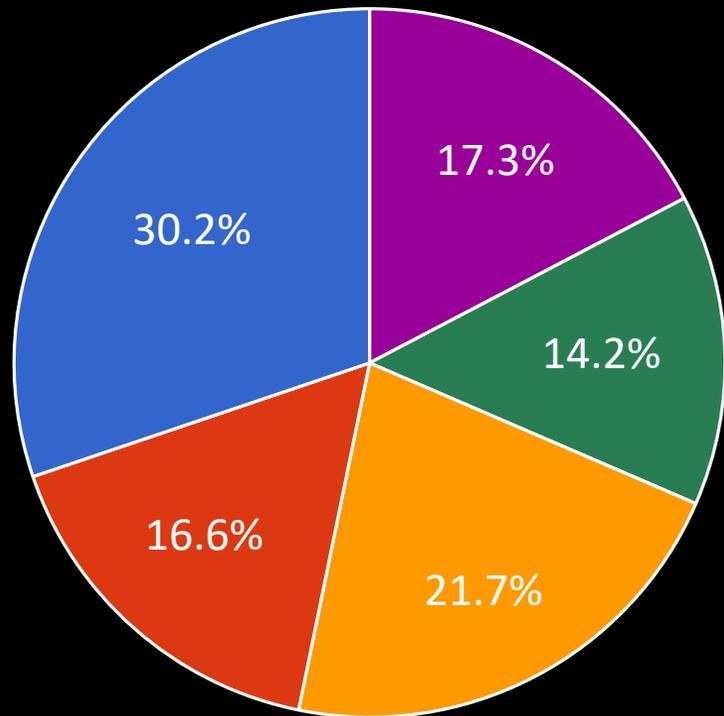

Cloud

- SQLPreview event
- Back-end management console
- Request debugger

Sustainability
Stability
Security

Annual Survey Results

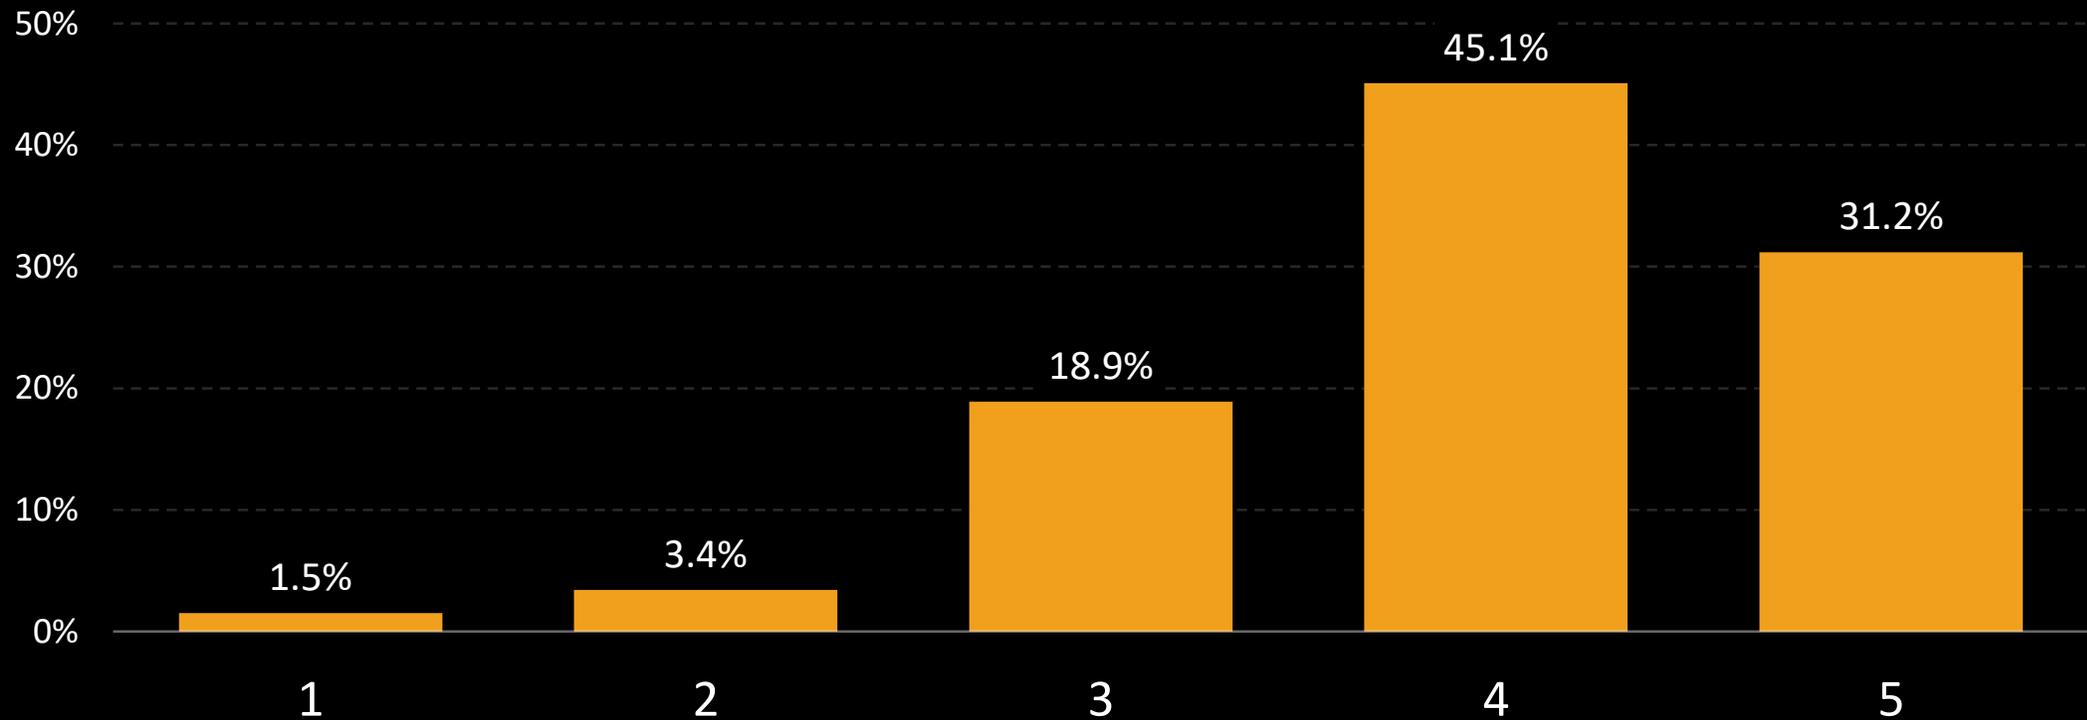

What is the version of PowerBuilder you are currently using?

- 2022 R2
- 2022
- 2019 R3 LTS
- EOMM/EOL versions (2017-2021)
- Legacy versions (12.x or older)

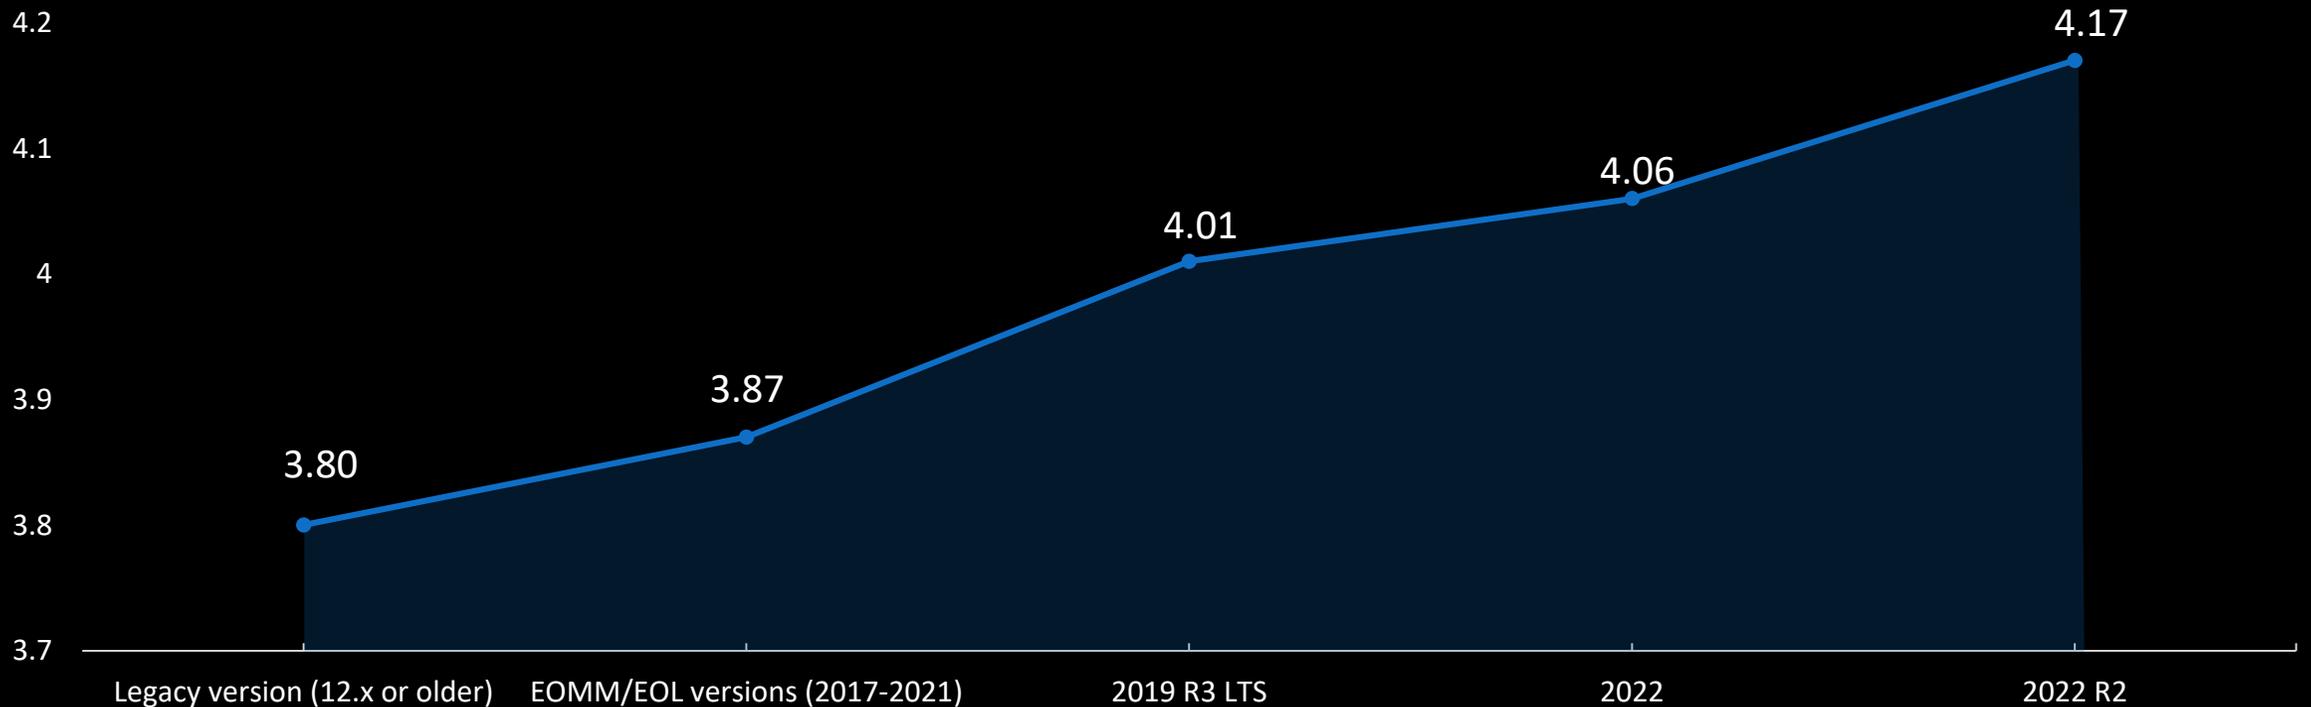

Annual Survey Results

How would you rate your general satisfaction level with the newest version of PowerBuilder you tried? (1)

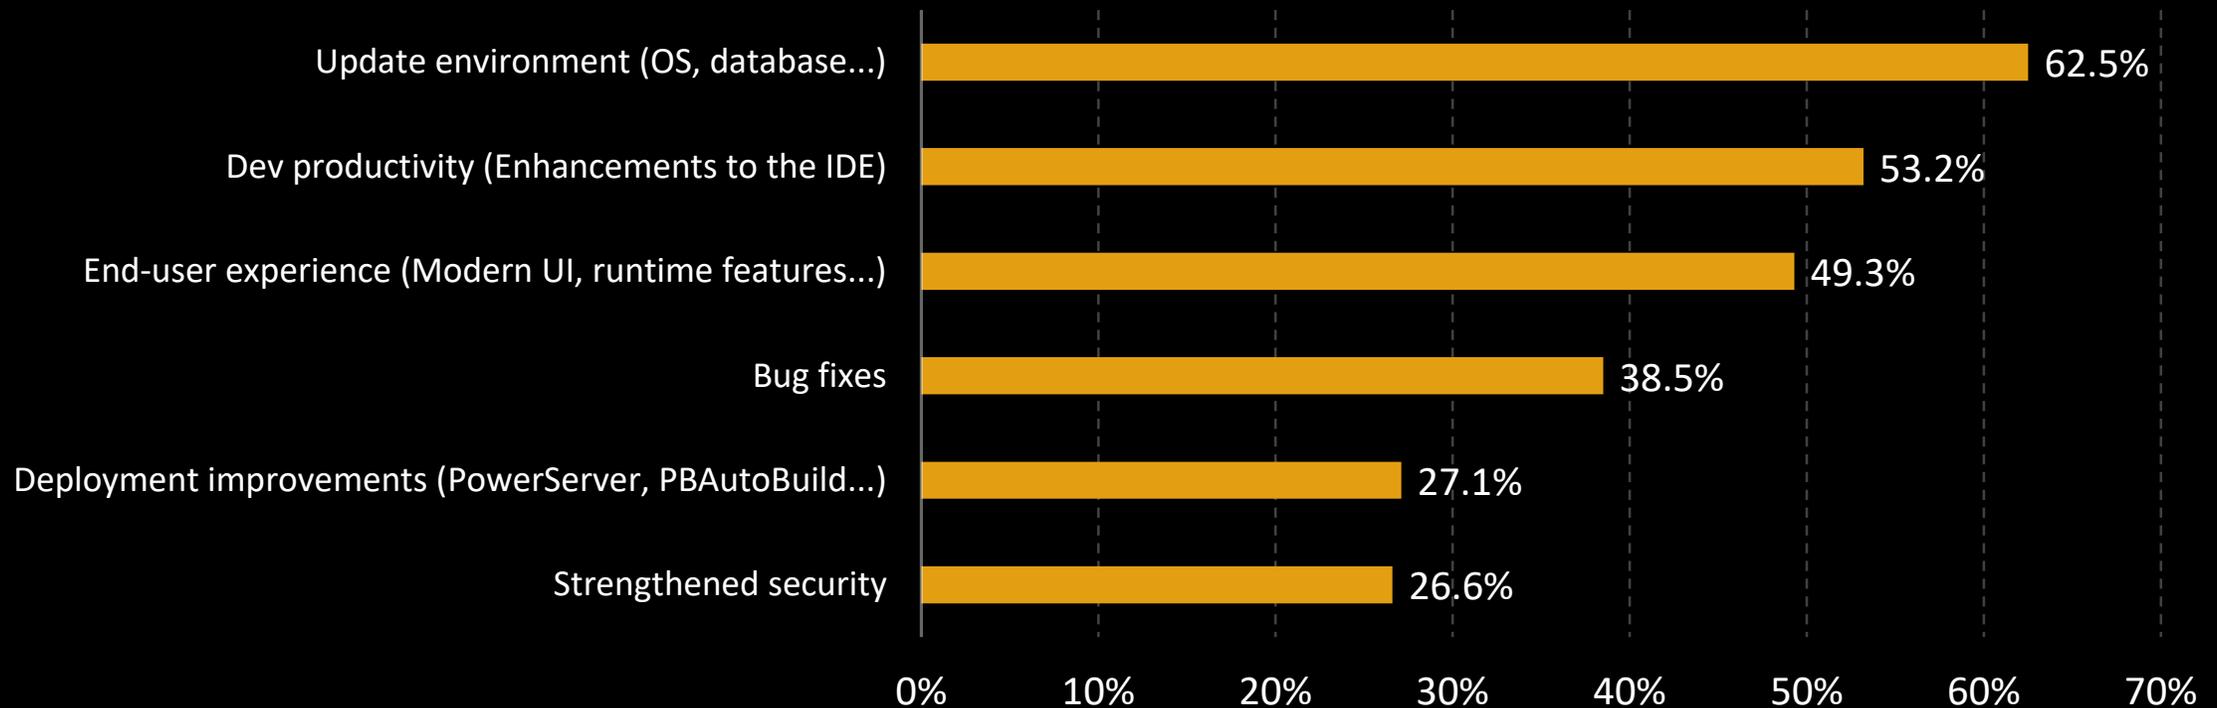

Annual Survey Results

How would you rate your general satisfaction level with the newest version of PowerBuilder you tried? (2)

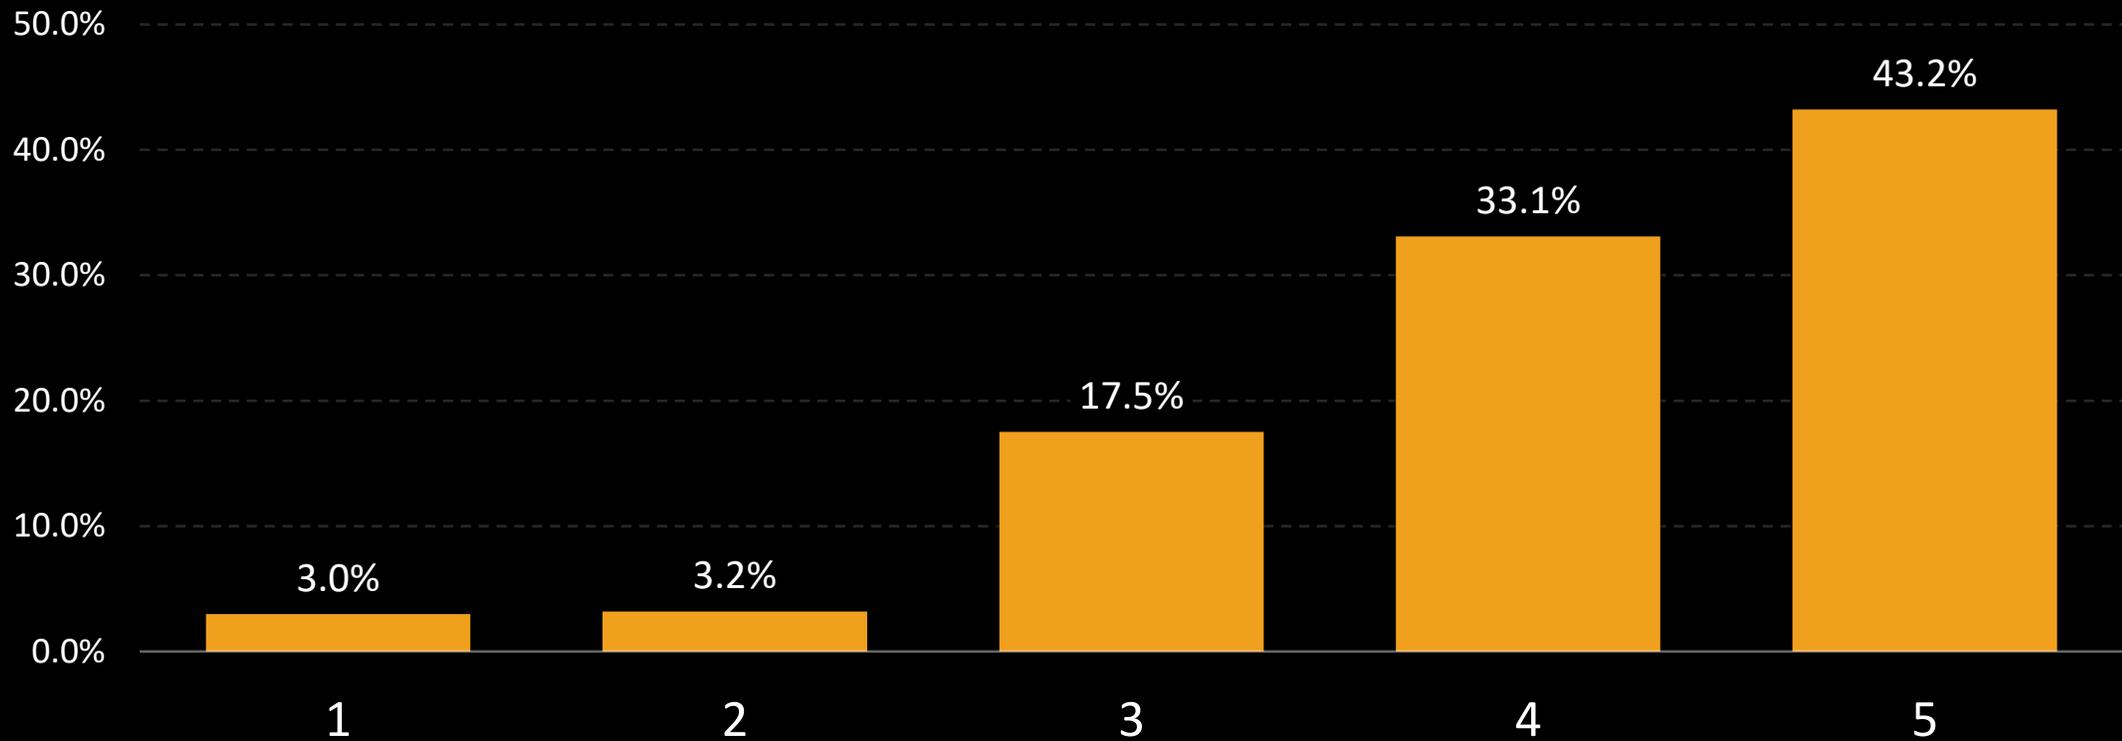

Annual Survey Results

What are the primary reason(s) that drive decision to upgrade your PowerBuilder version?

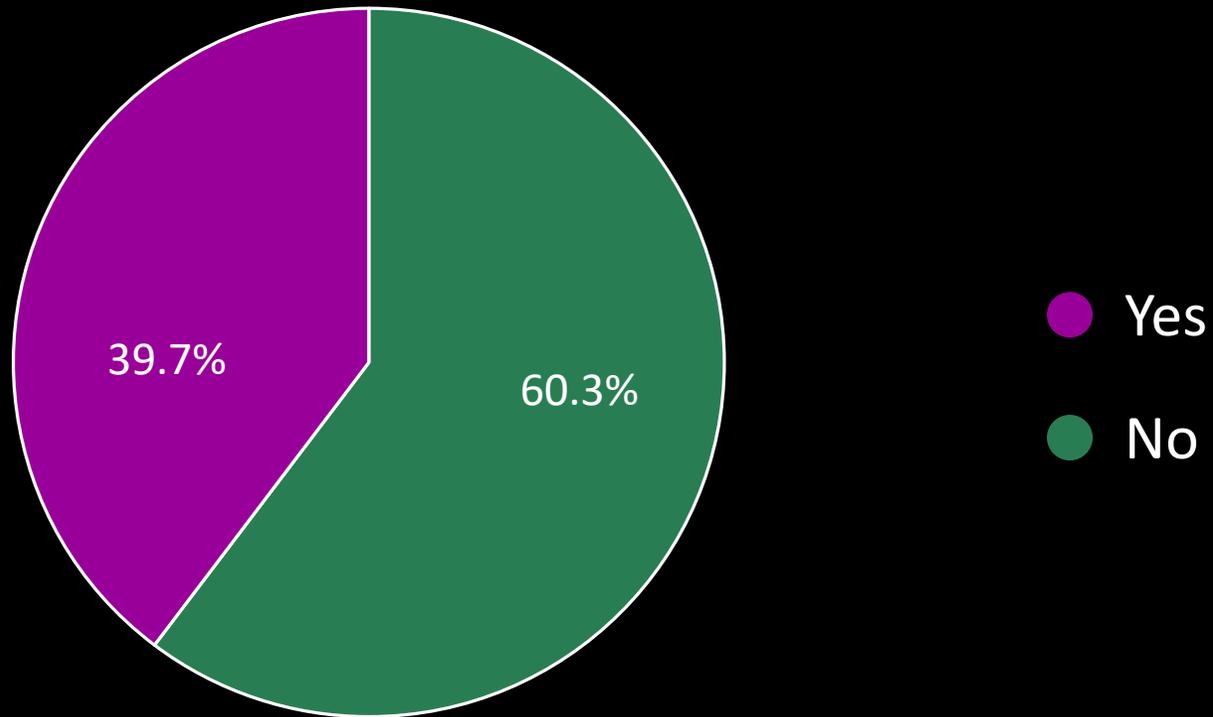

Annual Survey Results

How would you rate your most recent upgrade experience?
