Pivotal Point

Revamping the developer experience:

Modern IDE & features

Ultra-fast compiler

Solution format

With customer-driven revisions:

Enhancing existing features

New features

Documentation

Design Philosophy

Modernizing in practical, low-risk, cost-effective way:

Familiar IDE, PowerScript, and DataWindows

Client/server imports 100% existing code

PowerServer imports 90-99% existing code

Codeless UI modernization

Most new features require minimal coding

Our Commitment

Long-term evolution, driven by customer needs:

IDE

Client/Server

PowerServer

.NET DataStore
